Dear Tesco growers, suppliers and SIZA stakeholders

RE: Tesco Approved Audit Companies for Siza Audits

Tesco – as a global retailer and well known household brand – is expected to apply and uphold stringent controls within our global supply chain to ensure that the product we sell is sourced responsibly. In order to ensure adequate levels of audit quality, service and integrity Tesco has – in consultation with suppliers– approved specific audit companies to undertake Siza audits for us. These include

- Control Union
- NSF
- SGS
- Intertek
- Wieta

As previously communicated - only ethical audits done by Tesco approved audit bodies will be accepted after the 1st October 2016.

1. Audits need to be visible on Sedex. We are aware of the recent changes/cost implications with regards to Sedex requirements and are in discussions with Sedex to reach a resolution
2. All non- compliances and closures thereof must still be tracked on Sedex

Suppliers must take responsibility to ensure that their service providers comply with these requirements.

Kind regards

Tesco SA hub
