COVID-19: ENSURING A SAFE RETURN TO WORK

This document was developed by Business for SA as a guideline in explanation of the OHS directive as issued on 29 April 2020.

As the lockdown is eased and businesses start to re-open, ensuring the health and safety of employees and members of the public will be of paramount importance. The Minister of Employment and Labour signed a Direction in terms of section 10(8) of the National Disaster Regulations that provides for measures employers are required to adhere to at this time. Together with the Direction, the Department published a Summary as well as a COVID-19 Walk Through Risk Assessment to guide additional workforce preserving strategies.

The hazards posed by Covid-19 are clearly identifiable, and employers must take steps to eliminate or minimize the risk of infection and the spread of the disease.

The Direction recognizes that there are sector specific measures that will need to be taken into account, and provision is accordingly made for sector guidelines to supplement the Direction.

The Direction does not apply to workplaces a) excluded from the Occupational Health and Safety Act (OHSA); b) in which medical or health care services are performed (but excluding retail pharmacies); and c) in respect of which a direction is issued by another Minister in terms of the National Disaster Regulations. It does apply to employers and workers in respect of the manufacturing, supply or provision of essential goods or essential services as defined in the Regulations, and any workplace permitted to commence or continue operations before or after the expiry of the Regulations. The Direction remains in force for as long as the declaration of the national disaster remains in force.

For purposes of the Direction, “worker” refers to the employees of the employer and any other person who works at the workplace. In terms of the Direction, every worker is obliged to comply with the measures introduced by the employer as required by the Direction.

Employers **with more than 10 employees** must implement the following measures:

Administrative	Social distancing	Health and safety				
		<i>Symptom screening</i>	<i>Sanitizers</i>	<i>Cloth masks and PPE</i>	<i>Members of the public</i>	<i>Ventilation</i>
<p>Conduct or update the employer's risk assessment to give effect to the minimum measures required by the Direction taking into account the specific circumstances of the workplace.</p> <p>If the employer employs more than 500 employees, submit a record of the risk assessment together with a written policy concerning the protection of the health and safety of its employees from C19 to its health and safety committee and the Department of Employment and Labour (at the</p>	<p>Arrange the workplace to ensure minimal contact between workers and, as far as practicable, ensure that there is at least 1.5 metres between workers when they are working.</p>	<p>Screen workers, when they arrive at work, to ascertain whether any worker, when arriving at work, has observable symptoms associated with C-19 (cough, sore throat, redness of eyes, shortness of breath, etc)</p> <p>Comply with guidelines issues by the National Department of Health in consultation with the Department of Employment and Labour in respect of symptom screening and if required to do so, medical surveillance and testing.</p>	<p>Hand sanitizers must contain at least 70% alcohol.</p>	<p>On 9 April 2020 the DoH recommended that all people should wear cloth masks in public to prevent the spread of C-19. This is particularly because asymptomatic persons may be infected with C-19.</p>	<p>Depending on what is reasonably practicable, arrange the workplace to ensure that there is a distance of at least 1.5 metres between workers and members of the public, or between members of the public.</p>	<p>Keep the workplace well ventilated by natural or mechanical means to reduce the SARS-CcV-2 viral load.</p>

Administrative	Social distancing	Health and safety				
Provincial Chief Inspector on the DEL's website).						
<p>Notify employees of the contents of the Direction and how it will be implemented</p>	<p>If it is not practicable to arrange the workspaces to be 1.5 metres apart, arrange physical barriers to be placed between workstations; or supply employees free of charge with appropriate personal protection equipment.</p>	<p>Require every worker to report whether they suffer from symptoms such as body aches, loss of smell, loss of taste, nausea, vomiting, diarrhea, fatigue, weakness or tiredness.</p>	<p>Ensure that there are sufficient quantities of hand sanitizer available at the entrance to and in workplace, free of charge.</p>	<p>Employers must provide each employee with at least two cloth masks to every worker, free of charge to wear while at work and while commuting to and from work;</p> <p>Require any other worker (who are not its own employees) to wear a mask in the workplace.</p> <p>The number and replaceability of cloth masks that must be provided to employees or required or other workers must be determined in accordance with any sectoral guideline and in light of the worker's conditions of work.</p>	<p>If reasonably practicable, put in place physical barriers or provide workers with masks or face shields, or visors.</p>	<p>Where reasonably practicable, have an effective local extraction ventilation system with HEPA filters, which is regularly cleans and maintained, and its vents cannot feed in through open windows.</p>

Administrative	Social distancing	Health and safety				
<p>Notify employees that if they are sick or have symptoms associated with C-19 that they must not come to work and must take sick leave in accordance with the BCEA</p>	<p>Ensure that social distancing measures are implemented through supervision in the workplace and in common areas (e.g. at canteens or toilets) through queue control, staggering breaks, etc.</p>	<p>Require employees to immediately inform the employer if they experience symptoms associated with C-19 as set out above.</p>	<p>Provide employee who work away from the workplace, other than at home, with an adequate supply of hand sanitizer.</p>	<p>Ensure that workers are informed, instructed and trained as to the safe and healthy use of cloth masks.</p>	<p>If reasonably practicable and appropriate, undertake screening measures of persons other than employees who enter the workplace.</p>	<p>Ensure that filters are cleaned and replaced in accordance with manufacturer's instructions by a competent person.</p>
<p>Appoint a manager to address worker concerns and consult with health and safety representatives / committees on the hazards and the measures to be taken</p>		<p>If a worker presents with typical C-19 symptoms:</p> <ul style="list-style-type: none"> • <u>do not permit the worker to enter the workplace or report for work</u>; • if the worker is already at work, <u>immediately isolate the worker</u>, arrange for the worker to be transported in a manner that does not place other workers or members 	<p>If a worker interacts with the public, provide the worker with sufficient supplies of hand sanitizer at the work station for both the worker and the person with whom the worker has interaction.</p>	<p>Make appropriate arrangements for the washing, drying and ironing of cloth masks.</p>	<p>If appropriate, display notices advising persons other than employees entering the workplace of the precautions they are required to observe while in the workplace, and require members of the public, including suppliers, to wear masks when inside the premises.</p>	

Administrative	Social distancing	Health and safety				
		<p>of the public at risk, either to be self-isolated or for a medical examination;</p> <ul style="list-style-type: none"> • immediately <u>assess</u> the risk of transmission and if necessary, <u>disinfect the area and workstation</u>; • <u>refer employees who may be at risk for screening</u>; • ensure that the employee who presents with symptoms is <u>tested</u> or <u>referred to an identified testing site</u>; • place the employee on <u>paid sick leave</u>, or if sick leave is exhausted, make application for

<p>failure, and <u>review the risk assessment</u> to ensure that the necessary controls and personal protective equipment requirements are in place.</p>		<p>their hands while at work.</p>	<p>sanitise hands regularly while at work.</p>			
<p>Give administrative support to any contact-tracing measures implemented by the Department of Health.</p>			<p>Instruct employees who interact with the public to sanitize their hands between each interaction.</p>			
<p>Ensure that the measures required by the Direction and the employer's risk assessment plan are strictly complied with through monitoring and supervision.</p>			<p>Ensure that surfaces that employees and members of the public come into contact with are routinely cleaned and disinfected.</p>			

Employers with **less than 10 employees** must:

- arrange the workplace to ensure that employees are least **1.5 meters apart**, or if not practicable, place **physical barriers** between them to prevent the possible transmission of the virus;
- ensure that employees with C-19 like symptoms are **not permitted to work**;
- immediately **contact the hotline: 0800 02 9999** for instruction and direct the employee to act in accordance with those instructions;
- provide **cloth masks**, or require the employee to wear some form of cloth covering over their mouth and nose while at work;
- provide each employee with **hand sanitizers, soap and clean water** to wash their hands, and **disinfectants to sanitize their workstations**;
- ensure that each employee while at work **washes their hands** with soap and water, and sanitizes their hands;
- ensure that **workstations are regularly disinfected**.

A contravention of the Direction places the employer at risk of enforcement proceedings under OHSA, and the offences and penalties set out in section 38 of OHSA will apply. Labour inspectors are tasked with the monitoring of compliance with this Direction and may attend at workplaces for this purpose.
