Dear Tesco growers, suppliers and SIZA stakeholders

**RE: Tesco Approved Audit Companies for Siza Audits**

Tesco – as a global retailer and well- known brand – is expected to apply and uphold stringent controls within our global supply chain to ensure that the product we sell is sourced responsibly. In order to ensure adequate levels of audit quality, service and integrity Tesco has – in consultation with suppliers– approved specific audit companies to undertake Siza audits for us. These include:

- Control Union
- NSF
- SGS
- Intertek
- Wieta
- BSI
- Partner Africa

As previously communicated - only ethical audits done by Tesco approved audit bodies will be accepted after the 1<sup>st</sup> October 2016.

1. Audits need to be visible on Sedex.
2. All non- compliances and closures thereof must be tracked on Sedex

Suppliers must take responsibility to ensure that their service providers comply with these requirements.

Kind regards

Tesco SA hub
